

CLARK OIL CO.

SURVEY REQUIREMENTS FOR SERVICE STATIONS

1. Lot lines
2. Improvements on property, if any.
3. Trees and Utility poles on property. In case property is densely wooded, so state and do not indicate each tree.
4. Public sidewalk. If none, so state.
5. Curb on street; if none, so state.
6. Show if street is a State, Federal or Country Highway.
7. Edge and center line of road.
8. Catch basins, trees, utility poles, fire hydrants, stop signs, etc. in front of property and also on side if a corner lot.
9. Location of sewer, water, and gas, if any. If none, so state.
10. State and City setback, if different than lot lines.
11. Elevations:-
 - A- Ten to twelve on property to give idea of general conditions of property, mostly on property line.
 - (1) Some on adjoining property if grade is much different.
 - B- Three to four on public sidewalk. If no sidewalk, disregard. Six to eight on corner lot.
 - C- Three to four on curb or edge of road if no curb. Six to eight on corner lot.
 - D- Any other elevations that will show unusual conditions.
12. If buildings on adjoining property are built close to road, show corner of building nearest road and our property and indicate number of stories and description, i.e., two story frame, four story brick office, etc.
13. Show what was used to locate corners of lot, i.e., pipe, iron road, etc.
14. Show legal description.
15. Show easements.
